Product Price Guide 2025

welcome to **Density**

Density being an explorer, has learned a lot from the successful past gone years that how to share the magic with unbeatable combination of bathroom fittings & accessories.

Density exceptionally forms and everlasting charm to its each and every collections. It always keeps a difference in the customer's bathroom by adding style and elegance. The DENSITY products which are unique in itself are blessed with exquisiteness and perfection. The products are manufactured by adapting new technology and specially trained workmanship, so that the strict quality checks can be done to avoid and kind of inconvenience to the customer's and can value the customer's investments. Which are been made to their dream bathroom look extraordinarily good.

We constantly work to understand consumer behaviors and what the user needs. Our goal is to always being able to offer a solution. The Density technology provides enjoyment, relaxation and comfort.

TECHNOLOGY INTRODUCTION

BRIGHT TECHNOLOGY

The three-layer electroplating creates extremely deep and uniform coatings, and meanwhile the molecular structures between the coatings of nickel plating, and chrome plating are very dense, which makes it bright as a mirror and shining like sunshine, dustproof and antifouling, able to resist scratches and never fade.

CONSTANT FLOWING TECHNOLOGY

Constant flowing bubbler has overcome the traditional disadvantages of flowing increased the increase of water pressure, and water flow is constant when the pressure is above 0.3Mpa.

SMOOTH TECHNOLOGY

The unique valve core is made by advanced ceramic alloy in the closed environment, and coated with a special lubricant coating, and this feature can ensure that the product is smooth for use as the new one for many years.

NOISE-FREE TECHNOLOGY

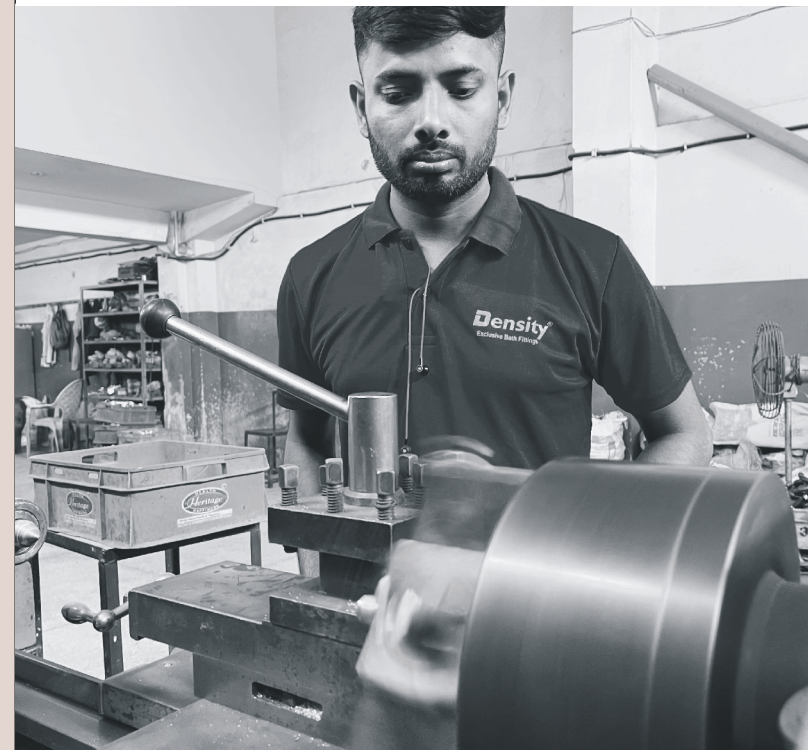

The inner wall of corporation faucet is smooth, which is consistent with the principles of fluid mechanics, the precision internal structure and design has ensured the silent and meticulous.

MANUFACTURING PROCESS

In Density, we try to research and development, it makes our products not only with good looking but spotless with its technology and craft. For the quality, we invest more than most of other sanitary companies. You will not only get advanced products but also high quality good service.

All Density Products are subjected to extensive multiple tests as per our defined systems and parameters. The products are warranted against all manufacturing defects

APPLICATION

Controlling Water Flow : Allows users to shut off the water supply to specific fixtures for maintenance or repairs.

Regulating Water Pressure : Helps control and reduce excessive water pressure to prevent damage

Connecting Fixtures : Used in bathrooms and kitchens to connect basins, geysers, bidets, and water closets.

Enhancing Safety : In case of leaks or emergencies the valve allows quick shut-off.

BENEFITS

PERSONAL HYGIENE

Health faucets guarantee better personal hygiene as opposed to toilet paper because application of water definitely washes off better.

COMFORT

Most people feel more comfortable using health faucets because they are comfortable in using water which is not harmful to the skin. Toilet paper can be harsh to one's skin, especially when someone has sensitive skin, or when someone needs to use the restroom a bit too many times.

CLEANLINESS

Health faucets eliminate the chances of water clogging, unlike the times when you use toilet paper and try to dispose of it. It keeps your bathroom clean and tidy, sans any mess.

EASE OF USE

Health faucets come with adjustable pipes which make it quite easy to move around and use in accordance with necessity. The spray feature i.e. the intensity of the water flow can also be adjusted as per one's need.
